

# RANGERS STOP GAMBLING AT FIESTA

San Antonio's Mayor Said to Have Given "Permission" to Violate State Law.

## GOVERNOR TAKES HAND IN MATTER

San Antonio, Texas, Sept. 14.—Following the notification of the adjutant general's department by Rev. J. G. Young, pastor of the Methodist church here, that open gambling has been conducted in San Antonio since the beginning of the Mexican celebration at San Pedro Springs, a squad of Texas rangers arrived late last night and more are expected today. Eleven games are reported in progress. The rangers are likely to make a general raid on the place tonight. The celebration began Sunday.

The lid was taken off by the authority of mayor Bryan Calaghan, it is declared, for the benefit of the Mexicans who are celebrating the centennial anniversary of the independence of their republic. The question is discussed whether it will be possible to obtain a similar concession for the international fair.

Roulet, keno, klondike, craps and other games are running even more "wide open" than in the days when San Antonio had a gambling house on every corner.

## Like the Old Days

Gambling in all forms was common at these Mexican celebrations up until three years ago, when the present gambling law was passed, but since then there has been "nothing doing" until this year.

When the celebration opened up Saturday night one game, appeared in a remote corner of the Mexican village, which is located on the quarry grounds owned by the city of San Antonio. This game was ignored by the officers and now fully a dozen games are in full operation there, and as many more at the other celebration at Central park.

Even in the old days it was customary to play with chips, but at the games now in operation silver is piled high on the table. Bets from 5 cents upward are taken. Hundreds of boys, American and Mexican, ranging from 10 years up, are permitted to gamble and at times they almost monopolize some of the games.

## Just Like Mexico

The games are being operated in the same manner as in Mexico when the government suspends the law during the "fiesta" and permits gambling to go rampant.

In view of the recent complaints against a number of Americans here for operating poker rooms and the fight started on the social clubs by the district attorney's office, it was supposed the officers had determined to put a stop to gambling. The fact that gambling without any restrictions was in full progress with every evidence of lasting a week, came in the nature of a surprise to the citizens in general.

## Minister Once Lived Here

Fort Worth, Texas, Sept. 14.—Rev. J. G. Young, who is mentioned in dispatches from San Antonio as having notified the adjutant general at Austin that opening gambling is in progress at San Pedro Springs, was once known here, having been pastor of one of the Methodist churches here, and El Paso business agent for the Polytechnic college at one time.

## Adjutant General to Scene

Austin, Tex., Sept. 14.—Adjutant general Newton and Capt. Rogers, of the rangers, leave this afternoon for San Antonio to investigate the alleged violation of gaming law in connection with the Mexican celebration there. They are going at the instance of the governor, who today communicated with the San Antonio authorities, advising that the law must be enforced and that the state will act if necessary.

## REMOVED TO ANOTHER JAIL

Waxahachie, Tex., Sept. 14.—Frank McCue, charged with the murder of Earl Mabry, near Dallas, three years ago, and who has been here several times for killing was brought here from Dallas today and jailed pending repairs to the Dallas jail.

# SPAIN TO CONTINUE ANTI-CLERICAL WAR

Madrid, Spain, Sept. 14.—Count Romanones, president of the Spanish chamber of deputies. He is reported in an interview today as declaring the policies of premier Canalejas are gaining daily adherents, as the country is convinced that he is working for the best interest of the nation.

The count thinks Spain will be emancipated from "fanatical clericalism," which, he says, has for centuries weighed heavy upon it.

The struggle is not against Catholicism, but against clericalism, which is impeding the development of Spain and mingling in politics.

At the opening of the cortes, Canalejas according to the president, will announce the unmodified continuation of his religious campaign.

# EL PASO HAS 81 BOOZE EMPORIUMS

Although saloons are numerous in El Paso the city, nor the county, as yet have the quota known on the basis of the scholastic census—55 in the city and 425 in the county.

On the present count—according to county officers—the city has but 81 third parties, not including the 10 so-called life savers stationed in the various hotels in the city. The hotel butlers, however, are not considered saloons, as the Texas laws allow each hotel to operate a bar.

On September 1, there were but 78 saloons in the city but three licenses have since been issued.

Over El Paso county, there are a total of 121 saloons, of which 51 are malt shops and 70 are regular liquor establishments.

The license paid for the malt shops is \$93.75 each, and for the liquor license, \$562.50 each. The total paid in El Paso county at the present time for the privilege of selling liquor and malt drinks the coming year is \$41,156.25.

All saloon licenses in the county are renewed each summer and the application for licenses filed this year totaled 171, which included 27 applications for transfer of licenses, making the actual number of applications 144.

# SAUSAGE TO BE MADE IN JUAREZ

Americans to Erect a Plant and Ship to United States and Into Mexico.

## ABOUT \$20,000 TO BE INVESTED

Although there has been much delay and difficulty, quiet work of eastern manufacturers will bear fruit soon in a model sausage factory in Ciudad Juarez, assisting commerce of both the Mexican border city and El Paso. A plant to cost about \$20,000 will be erected across the river and the output will be shipped over all Mexico and the United States.

Assisting the project, is the customs condition. There is no duty on inspected meat into the United States. So the local factory may ship into the southern republic without cost from the Juarez plant, and also into the United States, thus having the advantage of low priced labor, and a doubly large field. It is the first step on the part of American manufacturers into Juarez, long maintained as a coming center for such projects.

For a number of weeks two prominent manufacturers of Pennsylvania have paid frequent visits to Juarez and the city of Chihuahua, securing necessary permits and business concessions for the venture in the strange land. They are H. T. Sherman, of Lancaster, and J. S. Weaver, of Lebanon, Pa., connected in a business way. The Lebanon sausage factory is known throughout the United States for a certain high grade brand, and it is the intention of the promoters to make equally costly sausage in the Mexican plant. It is declared, assisting the Pennsylvania men in the work is J. Garcia Cuadra, of El Paso, who as well is interested in the new project.

Already machinery has been ordered, and will arrive over the Orient line from Omaha, Philadelphia and Kansas City. The plant will employ about 50 men, and will consume some 100 head of cattle each week. A site is being negotiated for the plant, and the wheels will be set rolling within a few months.

Those who have already signified their intention of making the trip by signing the list at the chamber of commerce, are:

Z. L. Cobb, H. S. Potter, A. S. J. Elyar, J. J. Mundt, G. Giron, A. E. Lorraine, J. A. Hanner, C. A. Kinne, Felix Martinez, R. F. Burgess, W. H. Brown, August Meisel, S. C. Aubrey, Claiborne Adams, G. A. Martin.

G. A. Martin will represent the International Dry Farming congress at the irrigation meeting, being an officer of that congress and having been commissioned to attend the irrigation congress as a fraternal delegate. He will go from there to the Dry Farming congress at Spokane, representing The Herald in both congresses and sending reports daily to this paper.

## STRONG EVIDENCE AGAINST CRIPPEN

Doctor Listens to the Experts Testify Without Flinching.

London, Eng., Sept. 14.—Testifying at the resumption today of the Crippen murder trial, Prof. Augustus J. Pepper, pathologist of the university of London, said his examination had convinced him that the human parts found in the cellar of the Crippen home were severed by a hand skilled in surgery and directed by a hand possessing real knowledge of anatomy.

The witness identified particularly a piece of flesh six by seven inches in size as coming from the abdominal wall, and which bore a scar, which, in his opinion, was undoubtedly the result of an operation. Mrs. Crippen had a similar scar.

The evidence of experts has been awaited with eagerness and the courtroom was jammed this morning. Dr. Crippen was seemingly cool and collected as experts testified closely to the testimony.

On the other hand, Miss Ethel Levee, his companion, was plainly in mental and physical distress, and was attended in court by a wardress, who sat closely to her throughout the proceedings.

Under cross examination, Prof. Pepper admitted that he had been unable to establish the sex of the victim.

## MANAGERS CHANGED

The Texas company has made a shift in the management of its Clifton branch. L. R. Taylor, who has been the Clifton manager, will return to El Paso as cashier at the company's plant. H. A. Fouts, who came here recently from east Texas and has been employed in the offices of the Texas company, has been assigned to the Clifton office as manager.

# EXCURSION TO COLORADO TO BE MADE IN CONGRESS

El Paso Delegation Will Be Large and Will Travel in a Special Train.

## UPPER VALLEY MEN TO BE IN PARTY

El Paso's excursion to the Pueblo irrigation congress is a go. At least 100 prominent business men and citizens of the Rio Grande valley and El Paso will leave El Paso on September 24 to attend the National Irrigation congress, which opens in Pueblo, Colo., on September 26. The Rio Grande valley delegation will go on board a special train provided by the Santa Fe, and including a special Fred Harvey diner, standard Pullman cars and a tourist car for the municipal band, which will be taken to Pueblo by the boosters.

All the details of the trip to Colorado have been completed and the success of the excursion is now assured. A total of 25 El Paso names have already been attached to the list of those who have consented to make the trip and as many more are expected to sign this week. A large delegation from the upper Rio Grande valley, including the Mesilla and Huerfano valleys will join the excursion train as it passes through the upper valleys en route to Albuquerque.

Those who have already signified their intention of making the trip by signing the list at the chamber of commerce, are:

C. R. Loomis, H. B. Stevens, H. S. Potter, A. E. Lorraine, J. A. Hanner, C. A. Kinne, Felix Martinez, R. F. Burgess, W. H. Brown, August Meisel, S. C. Aubrey, Claiborne Adams, G. A. Martin.

G. A. Martin will represent the International Dry Farming congress at the irrigation meeting, being an officer of that congress and having been commissioned to attend the irrigation congress as a fraternal delegate. He will go from there to the Dry Farming congress at Spokane, representing The Herald in both congresses and sending reports daily to this paper.

## THE WRONG MAN IS REPORTED ARRESTED

Through a typographical error, The Herald was made to state in a Cananea dispatch on September 13, that N. D. Navarete had been arrested in connection with the burning of his house at Cananea. This should have read A. Cananea was arrested and not the owner of the house, who was at Naco, Arizona, at the time, where he is in business.

N. D. Navarete writes The Herald and denies that the house was burned when it burned; he also says that it has not been confiscated by the government. He says the house was occupied by a family at the time it burned and that it was his property. The paragraph in the article stated that Navarete arrived in town the night of the fire, should have read "A. Navarete arrived in town the night of the fire, it is said."

## EXPLOSION IN AN INDIANA COAL MINE

Linton, Ind., Sept. 14.—One dead, one fatally and five seriously injured are the results of a gas explosion caused by a defective miner's lamp at Vandala mine No. 10, nine miles from here today.

Three hundred men who were working in the mine, changed to another part of the mine this morning, and this probably prevented a fearful disaster.

## EL PASO BALL PLAYER RELEASED

Another Maverick has been cut out of the herd. This time it was Cal Earthman, playing second, who has been given his release.

Bobby Wright, utility player, has been assigned to his place. Jackson is expected Friday and will accompany the club to Bisbee. He will be in the field with Stovall and Ketchum.

The El Paso club will go to Bisbee on Friday for a Saturday and Sunday game with the reinforced Maroons who have been strengthened by Henle Mung and his running mates from the camp, Dallas club of the T. L.

## MISS SUMMER GETS A COLD DEAL AND QUITS

Leaves Us For Recreation In Tropical Mexico

Another affinity affair has hit the earth ker-plunk. No later than Tuesday night on the front gallery of old man El Paso, Miss Linger Summer was rudely, not to say cruelly, shoved from the lap of Mr. Fall Autumn, who immediately beat it for his downy cooed, where an extra wool blanket awaited him invitingly.

It all came about in this wise. Tuesday was a day of ill omen. It was the day of September. Dogs barked in the streets and a cloud hung over Mount Franklin. Lowering weather was signaled from the watch tower, on the weather bureau. Before noon a steady soaking rain was falling and shower sickies and rain coats were fished from the discard for emergency use. It was a good, old fashioned, gully washing rain while it lasted but soon drizzled

# INSURGENTS SWEEP WASHINGTON

## DEMOCRATS OF COLORADO ARE DEADLOCKED

Shafroth and Jefferson Each Claims the Nomination; Neither Certain.

## MANY UNPLEDGED VOTES AT LARGE

Denver, Colo., Sept. 14.—The Democrats of Colorado found themselves in a state of uncertainty at the opening of the state convention today. Until the situation is cleared by the nomination of a candidate for the governorship, the delegates cannot form any alignments on other offices.

Governor John F. Shafroth wants to be renominated and he is being opposed by Dr. R. L. Jefferson, Steamboat Springs, Routt county. Neither has enough instructed delegates to make the 551 necessary for a choice out of the 1191 delegates, but both are claiming control of the unpledged delegates.

There was some lively hustling or votes prior to the calling of the convention to order.

Both Shafroth and Jefferson assert with all confidence that they will have about 600 on the first ballot, and this in spite of the fact that more than half of the delegates were given a free hand by their county conventions.

Jefferson's strength was vastly increased when the big Denver delegation with 234 votes was pledged for him a week ago. But this delegation failed to appear at the convention that might complicate matters. The so-called "platform" Democrats or those who favored the program of Shafroth in calling the present special session of the legislature for the purpose of redeeming platform pledges, have selected a full delegation to the state convention, headed and have given notice to the state committee by former governor Chas. S. Thomas, mitter of contest.

Although the so-called "platform" Democrats will contest the seats given their opponents on temporary roll call, the sentiment seems to favor allowing the temporary roll to stand. There was practically no change in the apparent strength of the Shafroth and Jefferson forces when the convention was called to order. The situation is decidedly mixed and it is hard to forecast the result of the balloting.

The state committee has signified its intention to pass the Denver contest on to the convention without action or recommendations and allow the matter to be fought out on the floor of the convention.

Next in importance and influence comes the Pueblo delegation with 69 votes, who were sent away untrammelled by instructions as to who they should support for head of the ticket. Both the Shafroth and the Jefferson forces are besieging them with overtures, none of which as yet has been accepted.

## SEVERE STORM ON THE TEXAS COAST

Galveston, Tex., Sept. 14.—A severe storm which is reported as sweeping the western part of the Gulf of Mexico, has not reached Galveston yet, but the wind is rising.

Indications are that the city will be visited only by the edge of the storm.

The hurricane is now supposed to be near Brownsville.

## NURSERY MEN WANT A TARIFF

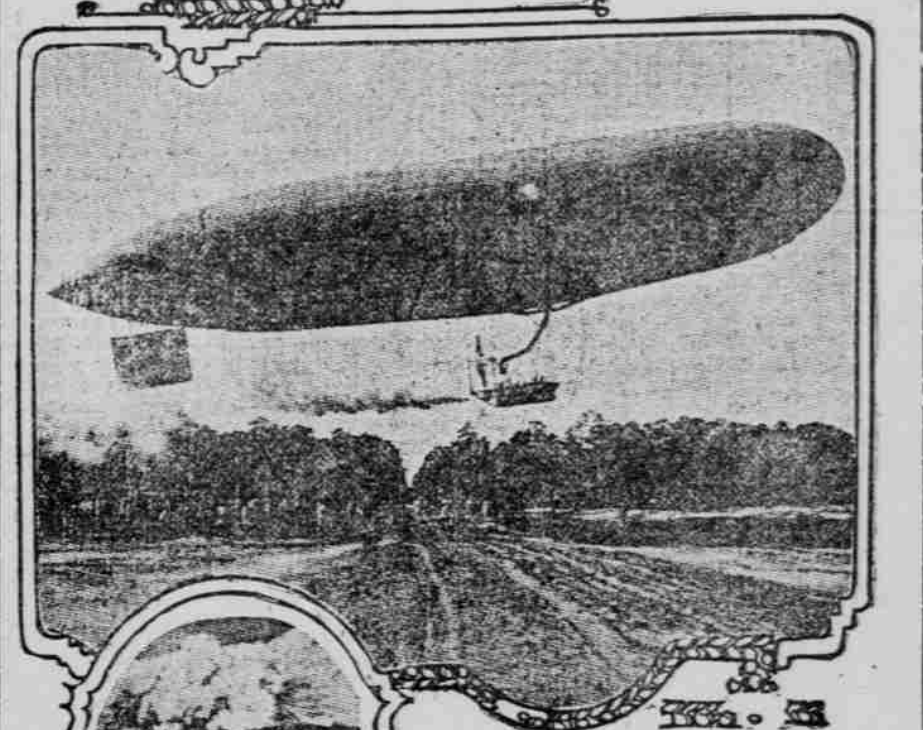

Waco, Tex., Sept. 14.—The Texas Nurserymen's association today adopted a resolution passed asking congress to provide for a duty on foreign citrus products.

## TWO PLEAD GUILTY TO ROBBERY BANKS

Vernon, Tex., Sept. 14.—Allen Hindglass and H. A. Warner, pleaded guilty in the district court here today to three charges of complicity in the robbing of the state bank at Harrod last April.

Hindglass received a sentence of 11 and a half years. Warner was sentenced to serve eight years. Frank Holloway, who is also charged with robbing the Harrod bank and is now out on \$15,000 bail, failed to appear for trial this morning and his bond was forfeited.

## Kaiser's Daughter Attends Maneuvers Of the Army

## Girl Is Honorary Colonel of Regiment and Visits Battlefield With Father.

A picture of the German army balloon, Perseus II, and also a portrait of princess Victoria Louise of Prussia, both of whom were central figures at the recent army maneuvers at Elbing, Prussia. The balloon ascended at dawn and ascertained the strength and position of the mock enemy. An attack was made at once after a wireless from the balloon had flashed the information.

The princess Victoria Louise appeared with her father, the Kaiser, in the smart uniform of the Hussars, with the famous death's head on the cap. The princess is the honorary colonel of the regiment.

## German Dirigible Balloon Is Blown Up; Three Men Are Injured.

Baden Baden, Germany, Sept. 14.—The German dirigible balloon Zeppelin VI, while entering her shed today, was blown up by the explosion of a motor in the rear of the Gondola. Three of the crew were seriously injured.

This is the fifth serious accident which has befallen the Zeppelin airships, the histories of which have been brilliant, but brief. The Zeppelin VI was under charter to the Passenger Airship company, having replaced in the passenger service the recently wrecked Deutschland. It was the same type as the dirigibles in the German army.

## SUGAR CROOK IS SENT TO PRISON

Man Connected With Sugar Trust Gets Sentence of Two Years.

New York, Sept. 14.—Ernest W. Gerbracht, former superintendent of the Williamsburg refinery of the American Sugar Refining company, who, with Charles A. Heike, former secretary and treasurer of the company, was convicted last spring of conspiracy in connection with underweighing frauds, was today sentenced to two years in the federal penitentiary at Atlanta and to pay a fine of \$5000.

Sentence on Heike, who has been called "the man higher up," is still pending. Gerbracht was released on a bond of \$25,000 pending an appeal.

## CHINAMAN IS HELD IN COUNTY JAIL

Held on a charge of murder, Mar Lee Chung, arrested in connection with the death of Leung Mon Don, is a prisoner at the county jail with the date of his preliminary hearing undetermined. It probably will be held Thursday. The Chinaman was committed to the county institution Tuesday night following the investigations conducted by the detective department. Chief Stansel refuses to discuss the case.

The Crime.

Leung Mon Don was found dead in the alley back of the Star stables Monday morning and Mar Chung was arrested Monday night and held as a suspicious character. Whether he has been identified as the Chinaman who bought the knife scabbard Saturday night, which was found near the body of the dead Chinaman Monday morning, Mr. Stansel also refuses to state.

H. Mohr, who conducts a hardware store at 309 South El Paso street, and from whose establishment the scabbard was obtained, states that he has not seen Ackerman, the clerk who sold the scabbard, since he quit the employ of the store.

Dead Chinaman's Funeral.

No funeral arrangements have been made for the disposal of the body of the murdered Chinaman. A brother in New York City and a cousin in San Francisco, have been telegraphed and are expected to arrive for the funeral.

## TENNESSEE DEMOCRATS ENDORSE REPUBLICAN

Nashville, Tenn., Sept. 14.—The Independent Democratic convention met here at noon today with a majority of delegates instructed to endorse Capt. Ben Hooper, the Republican nominee for governor.

It was reported that many delegates favor not only endorsing Hooper, but making him their nominee. This report was an unofficial answer to yesterday's harmony offering by the regular Democratic state committee and to reports that governor Patterson's withdrawal from the regular nomination would cause a bolt in the convention.

The independent leaders confidently predicted that 1000 or more delegates would vote to keep faith with their Republican allies.

## ELECTION FRAUDS ARE FEARED IN ILLINOIS

Chicago, Ill., Sept. 14.—State's attorney Whymann announced today that he had employed a large force of private detectives to watch the voting at tomorrow's primaries and the grand jury will be kept in session tomorrow for prompt action in case of violations of the law discovered.

Representatives to the state legislature as well as to the national congress will be nominated. Nearly all Democratic representatives and senators who voted to send William L. Dwyer to the senate are seeking re-nomination.

Among these is Lee O'Neil Browne, Democratic leader, acquitted last week on a charge of bribery in connection with Lorimer's election.

## INFLUENCE OF TAFT OF NO AVAIL

With Standpat Vote Concentrated on One Man, Still Insurgents Would Have Won.

## SHIP SUBSIDY MAN MAY HAVE WON

Ballinger's Efforts to Stem the Tide of As Little Consequence as Taft's.

Seattle, Wash., Sept. 14.—In the insurgent storm that swept over the state of Washington yesterday, the old guard of the Republican party lost nearly everything.

Miles Poindexter, of Spokane, one of the insurgent leaders in congress, to the defeat of whom the president of the United States and his close advisers lent their advice to the "regular" Republicans, was nominated for United States senator by 40,000 pluralities, carrying every county in the state, and defeating his leading opponent, Judge Thomas Burke, of Seattle, in Burke's own precinct, and carrying Pierce county (Tacoma), the home of the other "regular" candidate, James M. Ashton.

Two insurgents were nominated for congress.

In King county William E. Humphrey, a "standpatter," and author of the ship subsidy bill, was probably re-nominated, but by a close margin.

In the second district, congressman McCredie, owner of the Portland baseball club, and a "standpatter," was defeated by Stanton Warburton, an insurgent, and in the third, or Spokane district, William Le Follette, a cousin of senator La Follette, of Wisconsin, and an insurgent, was nominated.

The Democratic vote was very small. It is believed George F. Cotterill of Seattle, national head of the Good Templars, has received the Democratic nomination for the United States senatorship.

## Taft's Deep Interest

National interest in the Washington primary was whetted by the effort which president Taft made two weeks ago, through secretary Ballinger, to concentrate the opposition of Mr. Poindexter upon one regular candidate. The president obtained the withdrawal of former senator John L. Wilson, of Seattle, according to Mr. Wilson, but Jas. M. Ashton, of Tacoma, and Thomas Burke, of Seattle, insisted on remaining in the race and dividing the regular vote. The balloting shows that a concentration of the regulars would not have changed the result.

Practically all the candidates for the legislature are pledged to vote for the candidates receiving the highest vote and there can be no fight over the election of Poindexter.

## ROOSEVELT TIES HIS OPPONENTS

Former President Is Not Defeated in New York; Fight Is Close.

New York, Sept. 14.—Political leaders of the Republican party, scanning the returns of the primaries in Greater New York yesterday, say the situation between the old guard and the progressives is practically unchanged.

The Roosevelt forces carried every district in New York county. In King's county, chairman Timothy Woodruff won 19 out of 23 districts. The old guard now claims it will get to Saratoga with 109 out of 142 delegates from King's, while the Roosevelt forces figure they have 233 out of 364 delegates

(Continued on Page Five)
